

## Step 4: How to share your video with your students

1. From a content area select the *Tools* and choose the *Mediasite-Link to presentation(s)*.

1. In this area you can search for all the videos you have uploaded in your library. If you want to search for a specific video add the name of the video in the text box and click *Search Presentation*. If you are not sure what video you want to add just click *Search Presentation* and this will give you a list of all the videos in your course.

### Create Links to Mediasite Content

#### 1. Search

Find one or more Mediasite presentations to add to this course by searching the title, description, tags and/or presenters. The "Advanced Search" provides options to fine tune the search.

#### 2. Submit

Click **Submit** to proceed. Click **Cancel** to go back.

- Once you have selected the video you want to share with your students click *Submit*.

## Create Links to Mediasite Content

### 1. Search

Find one or more Mediasite presentations to add to this course by searching the title, description, tags and/or presenters. The "Advanced Search" provides options to fine tune the search.
